

The screenshot shows a C++ IDE with a menu bar (File, Edit, Search, View, Project, Execute, Tools, AStyle, Window, Help), a toolbar, and a status bar. The main editor window displays the following code:

```
1 #include<iostream>
2 using namespace std;
3 int main()
4 {
5     int numbers[10];
6     cout<<"Enter 10 numbers:"<<endl;
7     for(int i=0;i<10;i++)
8     {
9         cin>>numbers[i];
10    }
11    cout<<"Number in reverse order:";
12    for(int i=9;i>=0;i--);
13    {
14        cout<<numbers[i]<<" ";
15    }
16    cout<<endl;
17    return 0;
18 }
```

The IDE interface includes a Project panel on the left, a toolbar with various icons, and a status bar at the bottom with tabs for Compiler (3), Resources, Compile Log, Debug, Find Results, and Close.
